

Welcome to the Equine Clinic at OakenCroft!

We are excited to have you visit our practice and look forward to sharing our facility with you. Here are some basic guidelines to make sure everyone has a great visit.

Daily Routine

- 1) Most days start at 8 AM. But, please check with the clinician you plan on riding with the day before for an accurate start time.
- 2) When we have cases in the hospital please check with the intern regarding what help they need and when to meet in the clinic in the morning, and for evening and overnight treatments.
- 3) If you are interested you may be able to go on some night time emergencies, please let the intern know.
- 4) Please make sure the intern, Stacy, and Dr. Jones have your phone numbers, especially if you're visiting during foaling season. We will also take your picture so we can remember you!
- 5) The time at which we end our day varies quite a bit, as does our lunch routine. It is best to bring lunch and some snacks with you for the day, but let us know if you need us to stop for anything.
- 6) Horse safe footwear (boots) are essential, and upstate New York weather is quite unpredictable so bringing a sweat shirt and jacket with you for the day is a good idea (and winter clothing when appropriate).
- 7) Clean khakis or jeans and a collared shirt (like a polo shirt) are suggested attire.

Cabin

- 1) Please leave the extern cabin in as good (or better) shape than when you arrived.
- 2) There are clean sheets in each room, please make the beds with fresh sheets before you leave and put the dirty ones by the washing machine in the clinic.
- 3) Please sweep the floors, wipe the counters, and remove all perishable food if there is not another extern coming after your stay.
- 4) Please ask any of us if there are any problems or concerns with the cabin, we want your stay to be comfortable.
- 5) If we run out of cleaning supplies please let us know so we may replace them.
- 6) Wireless service is available in the clinic and the cabin. Please use the Eco.Barn.GN network. The password is "ecowireless".
